

FOLD HERE

Literacy Development

Sort the food in the shopping bag into groups using the red and green hoops with the labels 'healthy LeadSmart foods' and 'sometimes foods'. Discuss each food item and the children's experiences of each.

FOLD HERE

Sensory Development

Discuss the ingredients used in the recipe with the children and their own experiences of baking at home and school. Talk about the procedures used throughout the activity.

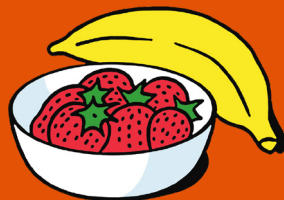

FOLD HERE

Manipulative Development

Encourage the children to create a healthy plate with the different colour playdough.

Talk about their choices and ideas and connect these with our LeadSmart learning.

FOLD HERE

Creative Development

Encourage children to find a diverse range of images in various magazines of LeadSmart food to make healthy meals of their paper plates. Encourage talk about each food item, how it is LeadSmart and supports our bodies and their own experiences of these foods.

FOLD HERE

Dramatic Play

Use the props and encourage the children to play 'going shopping'! Observe the choices they make and encourage talk about why they made them. Model how to make healthy choices at the supermarket and narrate your own thinking so children see the reasons for your choices.
